Daniel Paul Hillstrom was born April 29, 1930, In Minneapolis, Minnesota, the son of Paul and Emma (Ramsey) Hillstrom. When he was two years old the family moved to a farm twelve miles west of Sturgeon Lake, Minnesota. Daniel attended Church Hill School for his elementary education and graduated from Willow River High School in 1948. He continued to work on the family farm and bailed hay for farmers in the community until he was drafted into the army on November 7, 1951. After basic training he was sent to Germany for active duty. He was discharged from active duty on October 9, 1953. He returned to the states to again farm the family farm until he decided to enroll in the University of Minnesota. He graduated in 1959 with a Bachelors of Science Degree.

He then began his employment with the Food and Drug Administration's District Office in Minneapolis. After several years as an inspector he was transferred to their district office in Atlanta, Georgia, where he also worked as an inspector until he returned to Minneapolis. In 1972 he was given a promotion to FDA headquarters in Rockville, Maryland to work in their administrative offices. He retired from the FDA in May, 1988. In 1989 he and Marianne returned to Minnesota to live in Crystal, Minnesota until 2000 when they moved to a retirement community in Plymouth, Minnesota.

Dan was a man of great faith and was always involved in a local church in various capacities. He served on the board of elders, as a deacon, church treasurer and was involved in several men's Bible Studies. When he lived in Crystal and Plymouth he was a volunteer to deliver meals to shut-ins for the Meals-on-wheels program. With Marianne Dan also assisted in assembling the church newsletters for mailing.

On Thursday, May 29, 2008, Dan died at the North Ridge Care Center in New Hope, Minnesota from Amyotrophic Lateral Sclerosis (ALS) Lou Gehrig's Disease. He was seventy eight years old. Dan will be greatly missed. Peace to his memory.
